Massages

SWEDISH MASSAGE

Hydrate your skin and let your stress melt away in this slow, conditioning massage. Soothing massage lotion softens dry skin from head to toe while warm towels and soothing massage strokes ease tense muscles and renew your spirit.

DEEP TISSUE MASSAGE

For those who prefer more pressure, this massage works deeper in the muscles to help relieve knots, reduce tension, restore flexibility and increase range of motion.

MOMMY MASSAGE

Designed specifically for expectant mothers – maternity pillows and safe, soothing techniques allow you to achieve the relaxation and comfort your body craves (may only be performed after the first trimester).

SPORTS MASSAGE

This treatment combines heat therapy and specialized lotions to increase circulation, relax tight muscles, relieve sore joints, and aid muscle recovery. Perfect for before or after any sports events.

REFLEXOLOGY

This ancient technique focuses on pressure points in the feet that correlate to the rest of the body to create whole-body balance. The service begins with an aromatic hot foot soak, and incorporates massage work on the feet, hands and all of the body's reflexology points (available as a 30 minute or 60 minute service).
